

## **SEMINAR INFORMATION**

The Municipal Concrete Pavements Seminar is designed to provide city, county, and consulting engineers/designers the state of art practices when planning for roadway revitalization. The program provides comprehensive design and construction of new/reconstruction concrete pavements, concrete overlays, pervious concrete pavements, and full depth recycling of flexible pavements. The morning sessions focus on an in depth review of thickness design method, concrete materials and joint design. The afternoon will target pervious concrete pavements and full depth recycling of failed flexible pavements using portland cement.

This one-day course is designed to accommodate approximately 40 transportation professionals including municipal agency personnel, consulting engineers, contractors, and anyone desiring a good knowledge of municipal concrete pavement design and construction. Technical publications and a copy of StreetPave, ACPA's newest design software (a \$395 value) will be provided for each attendee.

## **SPEAKER INFORMATION**

Don Clem, PE  
Executive Director  
Rocky Mountain Cement Council

Scott Haislip  
Director, Streets and Local Roads  
American Concrete Pavement Association

Frank Kozeliski, P.E.  
Engineering Consultant  
Rocky Mountain Cement Council

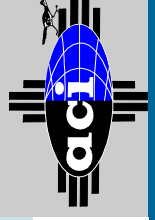

# **MUNICIPAL CONCRETE PAVEMENT SEMINAR**

**DATE: April 15, 2008**  
**TIME: 8:30 am—3:30 pm**

Marriott Pyramid

5151 San Francisco Rd. NE  
Albuquerque, NM 87109

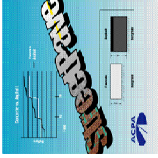

Rocky Mountain Cement Council  
PO Box 370597  
Denver, Co 80237

## REGISTRATION:

Registration fee includes continental breakfast, lunch, technical documents and a copy of Street-pave software. ...

**Class size is limited to a maximum of 40 participants, so register early!**
