

MARLIN J. KNUTSON AWARD FOR TECHNICAL ACHIEVEMENT

Description

This award recognizes an individual or organization for an innovative technical achievement of major significance, as defined by its contribution to the advancement of concrete pavement design, construction and performance.

Eligibility Requirements

Any individual or group is eligible for this award.

Nomination Process

Nominations will be accepted from all ACPA members, staff and Chapter/States in good standing.
Only one nomination is allowed per member company, staff member or chapter.

Selection Process

The ACPA Executive Committee will review the nominations and select the winner.
Entries are judged on the following:

Impact

- Did the new technology lead to a change in design or construction standards?
- Did the new technology allow project owners to use concrete in ways that they could not before?

Applicability

- Is the advancement usable by industry on a large-scale basis?
- Is the achievement practical?
