Concrete Pavement Webinar Series

2010 Webinar Program and
Learning-on-Demand Course Offerings

Education and training in the transportation-construction community once again reaches new heights in 2010 with the American Concrete Pavement Association's (ACPA's) highly acclaimed webinar series features an expanded program.

ACPA webinars provide the latest information about topics of the greatest importance to contractors, consultants, agencies, and others in the transportation-construction community.

Some of the most highly respected subject matter experts will present basic (60 minute) and intermediate (90 minute) webinars on a wide range of topics.

What's Covered?

The courses will cover virtually every aspect of design, construction, and rehabilitation of concrete pavements.

The program also will cover timely topics such as sustainability, energy, fuel efficiency, and more. There also will be application specific webinars that will focus on unique aspects of highways, or airports, roadways, or industrial/commercial pavements.

What's New for 2010?

Here are some of the highlights of our webinar program:

- < Modified program features 18 content-rich webinars.
- < More opportunities for interaction.
- < Dynamic presentation materials.
- < Special pricing on ACPA periodicals and resources.
- < Special access and special invitations to ACPA sponsored education & training events, including our popular "Concrete Pavement University" program, held in conjunction with ACPA's 47th annual meeting in Bonita Springs, Fla. Bonita Springs (November 29 - December 3, 2010).

Who Should Participate?

Almost anyone with involvement or an interest in pavements should attend. New webinars in 2010 will provide an overview of various topics; these webinars are ideal for busy people who need to know the basics.

Our 60- to 90-minute programs are designed for those who want an intermediate level course that covers various topics in greater depth.

- < The opinions, findings, and conclusions expressed by presenters and moderators during the ACPA webinar series, as well in associated information, is based on facts, tests, and authorities in the field of concrete pavements and related topics.
- < The materials are intended for use by professional personnel competent to evaluate the applicability and limitations of the information and who will accept responsibility of the application of the material contained herein.
- < ACPA and its partners and affiliates disclaim any liability for the application of the information presented in association with the webinars and cannot be held responsible for the accuracy of any of the sources, other than the word developed by the Association staff.

Training When and Where You Need It!

ACPA's "On Demand" training allows you to download and view some of our most popular web-based training modules.

On demand training allows you to see and hear valuable theoretical and practical information, as well as tips, techniques, and troubleshooting ideas from the industry's top professionals.

We currently offer more than a dozen timely topics, that you can download and watch (and listen) any time. Visit the ACPA bookstore at www.acpa.org for more information.

ACPA's webinar program allows you to earn Professional Development Hours (PDH's) pretty darned quick. For only a few hours of your time, you can earn PDH's without incurring travel time and expense. You can participate in webinars virtually anywhere you have a computer and an Internet connection.

Our programs also use voice over Internet protocol, so you don't even have to worry about a phone connection. With our complete program of webinars in 2010, you'll see how 18 PDH's can add up PDQ.
