

2008 Webinar Series

Web-based technical training by computer & phone

Provided by the
American Concrete Pavement Association

2008 Webinar Series Web-based technical training by computer & phone

The American Concrete Pavement Association (ACPA) Webinar Series offers an innovative means of delivering training where and when our customers need it most.

The ACPA webinar series present an excellent way to learn or brush up on basic to intermediate-level information on a wide range of topics. ACPA instructors present up-to-date information on concrete paving technology using a highly interactive technology that allows participants to ask questions or provide feedback throughout the 60- to 90-minute training courses.

TRAINING OBJECTIVES

As with ACPA's other training programs, the objectives of this webinar series are to highlight current concrete pavement design, construction, and rehabilitation procedures, as well as to update attendees on the performance, economic benefits, and environmental features related to concrete pavements.

Continued ...

Date	Webinar # and Topic*	Primary Instructor	Scheduled Time
January 11	Webinar #1, Concrete Mix Design Basics (IMCP based)	Mike Ayers	10 to 11 a.m. (Central)
January 31	Webinar #2, Texturing Concrete Pavements	Larry Scofield	10 to 11 a.m. (Central)
February 21	Webinar #3 Introduction to the M-E PDG	Mike Ayers	10 to 11 a.m. (Central)
March 4	Webinar #4, Joint Layout and Design	Robert Rodden	10 to 11 a.m. (Central)
March 18	Webinar #5, Troubleshooting Pavements Before, During & After Construction	Mike Ayers	10 to 11 a.m. (Central)
April 4	Webinar #6, Life Cycle Cost Basics	Leif Wathne	10 to 11 a.m. (Central)
April 18	Webinar #7, Thickness Design for Municipal Pavements	Scott Haislip	10 to 11 a.m. (Central)
May 2	Webinar #8, Concrete Pavement Materials (IMCP based)	Mike Ayers	10 to 11 a.m. (Central)
May 13	Webinar #9, Curing	Robert Rodden	10 to 11 a.m. (Central)
June 20	Webinar #10, Slipform Paving Operations	Mike Ayers	10 to 11 a.m. (Central)
September 9	Webinar #11, Concrete Pavement Sustainability	Leif Wathne	1:00 to 2:30 p.m. (Central)
September 23	Webinar #12, Thickness Design for Municipal Pavements	Scott Haislip	1:00 to 2:30 p.m. (Central)
October 9	Webinar #13, Hydration Processes (IMCP based)	Peter Taylor	1:00 to 2:30 p.m. (Central)
October 28	Webinar #14, Materials Incompatibility (IMCP based)	Peter Taylor	1:00 to 2:30 p.m. (Central)
November 18	Webinar #15, Subbases / Subgrades	Robert Rodden	1:00 to 2:30 p.m. (Central)
December 9	Webinar #16, Maturity	Robert Rasmussen	1:00 to 2:30 p.m. (Central)

* Gray shading indicates completed courses!

2008 Webinar Series Web-based technical training by computer & phone

The webinar series also offers a number of advantages, including:

- Convenience ... A computer, a high speed web connection, and a phone are all you need.
- Modularity ... The format allows you to mix and match courses to custom-design those that work best for you and others in your company or agency.
- Affordability ... The low cost allows you to design a training program that meets your budget requirements.
- Simplicity ... Participation is easy! You simply need a computer, a high-speed Internet connection, and a phone line. You can participate in these training programs virtually anywhere you may be!

WHO SHOULD ATTEND AND WHY?

The intended audience for ACPA webinar series include contractors, agency personnel, consultants, and others with an interest in basic to intermediate-level training on a wide range of technical topics.

WHAT TOPICS WILL BE COVERED?

Topics for the 2008 program include the following:

- Concrete Mix Design Basics (IMCP based)
- Concrete Pavement Materials (IMCP based)
- Concrete Pavement Sustainability
- Curing
- Hydration Processes (IMCP based)
- Introduction to the M-E PDG
- Joint Layout and Design
- Life Cycle Cost Basics
- Materials Incompatibility (IMCP based)
- Maturity
- Slipform Paving Operations
- Soil Stabilization
- Texturing Concrete Pavements
- Thickness Design for Municipal Pavements
- Thickness Design for Municipal Pavements
- Troubleshooting Slabs on Grade

Additional topics or program changes may be found on the ACPA website, www.pavement.com.

Instructors include top professionals representing the concrete pavement industry, as well as specific disciplines within the field. The seminar will feature presentations by Michael Ayers, PhD, ACPA's Director of Highway Pavement Technology; Leif Wathne, P.E., ACPA's Director of Highways; Gary Mitchell, P.E., ACPA's Director of Airports; Scott Haislip, ACPA's Director of Streets and Local Roads; Peter Taylor, PhD, P.E., National Concrete Pavement Technology Center's Associate Director; and other subject matter experts.

SEMINAR FEE

The American Concrete Pavement Association is offering the webinar series for the nominal cost of \$25 per person per webinar. Registration will generally be handled online, but please be sure to check the next page, and then provide us with important information. The registration fee is fully refundable until 24 hours in advance of the training, but is non-refundable after that date.

Important: ***Please note that the published prices are for calendar year 2008 only. Prices after December 9, 2008, are subject to change without notice.***

Did you know?

ACPA Webinars are \$25 each. Paid registrants have the opportunity to take an examination to earn one professional development hour (PDH).

The entire series would cost only \$400 and could help you earn 16 PDHs. This rate is far less than many other education & training programs!

The 2009 ACPA Education & Training Program A Preview of Webinars and Other Training

Because of the strong demand for our course offerings this year, ACPA is expanding its Education & Training Program in 2009. Here are some highlights of the program we're offering to public officials, representatives of the industry, and members of academia.

- 30+ webinar courses in 2009
- Basic and intermediate courses to be offered at competitive pricing (to be determined)
- Training on a wide range of subjects covering three basic topic areas:
 - * Concrete pavement design, construction, and materials
 - * Pavement restoration and rehabilitation
 - * Concrete pavement overlay technology

In addition to our popular webinar training, ACPA also will be offering extensive Streets & Roads training courses, three regional "Concrete Pavement 101" courses, "Airport Pavement Design," (updated to include training on the upgraded ACPA AirPave software program); and much more!
